Hello,

It seems that you have set 'Max heighth' property in module settings page higher than 0. Try to set it to 0 and it should resolve this issue.

hi,

any ideas why in my menu appears only bottom scroller button?

I realy can't figure it out.

thanks <http://www.ari-soft.com/images/fbfiles/images/menu.JPG>

It happens due to your template CSS file contains the following rule:

```
.hd {  
  display:none;  
}
```

try to add the following code:

```
.yui-overlay .hd  
{  
  display: block;  
}  
  
.yui-overlay-hidden .hd  
{  
  display: none;  
}
```
