
how can i change text color in submenu?

Posted by peppercorn - 2011/12/18 18:26

Hi there!

How can I modify the text color in my submenu, for inactive and active menu points, i want to have white text color instead of the black color.

First of all, a link to my website:

<http://tinyurl.com/bp5udtn>

And the CSS modifications i've already done inside the module parameters:

```
.yuimenuaritemlabel
{
color: #FFFFFF !important;
}
```

```
body .yui-skin-sam .bd
{
background: #631717 !important;
}
```

```
.yuimenuaritemlabel-selected
{
color: white !important;
}
```

```
.yuimenuaritem-selected,
.yuimenuitem-selected
{
background-image: none !important;
background-color: #000 !important;
}
```

```
body #ariyui67.yui-skin-sam ul li a.yuimenuitemlabel
{
color: #ffffff;
}
```

Thank you very much for your help, great module for horizontal menu integration in Joomla 1.7!

Kind regards,
peppercorn

Hello,

Add the next CSS rule:

```
#ariyui91 A.yuimenuitemlabel
{
color: #FFF !important;
}
```

Regards,
ARI Soft
