
Drop Down menu passes under Jomsocial toolbar

Posted by space - 2012/01/18 09:30

Hi,

I am using the latest version of ARI-YUI-Menu and any time the menu drops down it passes under my Jomsocial Toolbar.

Is there a way to solve this problem?

Thanks,

Esmond. <http://www.ari-soft.com/images/fbfiles/images/jomsocialshot.png>

Hi,

Link to website: <http://www.space.com.gh/>

You have to login to see the jomsocial toolbar.

Add the next CSS rule to "CSS Styles" parameter in module settings:

```
#tpmenu
{
  position: relative;
  z-index: 99;
}
```

Hello,

It also passes under jomsocial toolbar.

the last time you ask me to add the CSS rule below to "CSS Styles" parameter in module settings and it worked fine. but this is a different template so the CSS rule is not working.

```
#tpmenu
{
  position: relative;
  z-index: 99;
}
```

Thanks,
Esmond.

Add the following CSS rule:

```
#mainblock .showcase-module
{
  position: relative;
  z-index: 100;
  overflow: visible;
}
```
