
Bug with ARI YUI Menu and fix

Posted by ddougher - 2012/02/13 22:31

Don't know if this has been reported or not... didn't see it in a cursory look.

There is a bug in the mod_ariyuimenu.xml file

In the languages section of the xml file you will see this line

language/ru-RU/en-GB.mod_ariyuimenu.ini

I believe it should be...

language/ru-RU/ru-RU.mod_ariyuimenu.ini

=====

Hello,

Thank you. We have fixed the issue.

Regards,
ARI Soft
