Center text and remove all borders
Posted by cleblond - 2012/02/23 15:40

_____

Could someone please take a look at my site and suggest some css that will remove all borders and center the text in each li? I can get it to do it in firebug, but when I add the rules they don't seem to work.
Thanks

_____

Hello,

Add the next CSS rules:

#header-image .yuimenubar,
#header-image .yuimenubar LI,
#header-image .yuimenubar LI A
{
 border-style: none !important;
}

#header-image .yuimenubar LI A
{
 padding: 0 10px !important;
}

Regards,
ARI Soft

Thanks very much! I commented out the padding line and it worked nicely.
