Remove background & sub-menu styling

Posted by rwillox - 2012/04/06 11:06

_____

Hi

Have managed to simplify the menu without any borders etc but can't seem to find the hover background css to remove it.

Also, want to remove the drop-down sub-menu styling so it is just plain similar to the main menu items (see image attached).

Any help would be appreciated.

regards

_____

Hello,

Provide a link to a page where we can see menu.

Regards,
ARI Soft

_____

Hi

Thanks for the quick reply.

Site: http://www.vent-trex.com

Client wants simple, clean menu with no border, no background just colour change on hover.

regards

_____

Add the next CSS rules to "CSS Styles" parameter in module settings:

.nav .yuimenu .bd
{
 border-style: none !important;
}

.nav .yuimenu .yui-menu-shadow
{
 display: none !important;
}

.wrapper .container .nav .yuimenu li

```
{
 width: 100%;
}
```

Hi

Thanks, that's taken the sub-menu border/shadows off.

Also, need to remove the main menu items background hover (they show a blue graduated background) and the blue background on sub-menu hover and show text as green on hover only.

Thanks again for your help.

regards
Rob

_____

Add the next CSS rules:

```
.nav UL LI.yuimenubaritem-selected
{
 background-image: none !important;
}

#ariyui102 UL LI A.yuimenuitemlabel-selected
{
 color: green !important;
}
```

_____

Hi

That's perfect, thanks for the help.

Is there's a list somewhere of what the different css declarations do for future reference? Would reduce no of support posts.

regards
Rob

_____

Hi

Sorry, just one more thing can't seem to get right!

Want to remove the padding-left on main menu items so manu aligns with left content. Have tried modifying the li and a but without success.

regards
Rob

_____

body #ariyui102.yui-skin-sam UL LI A.yuimenuitemlabel
{
 padding-left: 0 !important;
}
