## Change hover text colour

Posted by sisterray - 2012/07/07 10:06

---

Hi!

Thanks for a great module!

Ive searched for an answer but could not find a solution that worked for me.

I want to change the text hover colour from black to white, and also the active menu text colour to white. But i dont know how!

You can see the menu here: [www.omforma.com](http://www.omforma.com)

Can you help me?

Hello,

Add the next CSS rule:

```
body #ariyui94.yui-skin-sam UL LI A.yuimenubaritemlabel-selected
{
  color: white !important;
}
```

Regards,  
ARI Soft
