Hi,

Sorry to ask this again, but I have changed this menu background colour about a year ago, BUT I can't remember how I did it and now I have been looking about an hour.

Hi,

I want to experiment with various colour combinations

The background colour and the font colour - the font size and weight can stay the same

The rest can stay the same. I have the css on how to change the drop down menus

Hope this is enough information

Blue background is defined in /templates/stonesailingclub/css/style.css site template CSS file. See ".navigation" CSS rule.
