Admittedly, I'm not the smartest guy here. Can someone just give me a hint as to what code I need to add to the CSS styles field in the joomla ARIYUI menu module? http://www.ari-soft.com/images/fbfiles/images/Administration.png

1) What is the style code to add inside horizontal lines in the submenu (AND make them the color gray?

2) What is the style code to make the submenu border, color gray?

Only two questions! THanks.
