
IE8, submenu works only once

Posted by Xux - 2012/12/19 21:20

Hi

I appreciate your nice efforts.

When I test this menu in IE8, the menu works fine, but once the submenus are clicked, there are not there anymore, unless I refresh the page. This problem is not present at Chrome and Firefox.

Best Regards

Xux

Hello,

Sorry, but we can't reproduce the problem.

Regards,

ARI Soft

Thanks for Your quick response.

It is odd, because I am trying it again and again and each time the same result. I guess I have to try it somewhere else to see if my IE is not working properly.

Thanks anyway.

Xux
