
Cursor to be a hand on the Menu

Posted by Lemonie - 2012/12/28 15:03

Hi

The title really says it all. I want the cursor to change to a hand when it hovers on a menu item. I have searched and tried previous replies but they are not working on my site.

<http://jtest.homelesshounds.org.uk/>

Thanks

=====

Hello,

Add the following CSS rule:

```
.yuimenubar A
{
  cursor: pointer !important;
}
```

Regards,
ARI Soft
