
Menu - Red dot on each link

Posted by gbreader - 2010/04/30 03:16

Hi there,

I'm building this page. www.eliteautomation.ca

The only menu on this page is an ari yui menu. I'm just wondering how I remove the red dot from each link. I'm not even sure it's part of your module, but I can't find it anywhere.

Thanks for any help. Great module!

Hello,

Add the following CSS rule to your template CSS file:

```
.yui-skin-sam LI
{
    background-image: none;
}
```

Regards,
ARI Soft
