
Submenu does not work

Posted by scottn - 2010/05/05 04:10

Hi,
i have a problem that on the top menu when i point the mouse over the submenu and it just work the first but the others dont work...
how to solve this problem?

on the TEST1 -> sample -> sample 2
<http://studentweb.infotech.monash.edu.au/~iegroup17/Joomla/>

thanks in advanced

Hello,

Add the following CSS rules to your template CSS file:

```
BODY .art-contentLayout
{
    z-index: 1;
}
BODY .art-Block
{
    z-index: 2;
}
.art-BlockContent-body .yuimenuubar ul li {
    background-image: none;
}
```

Regards,
ARI Soft
