IE9 not displaying sub menus properly!

Posted by jimijbob - 2013/06/16 17:51

_____

Hi

My menu does not show the sub menu items properly in IE9, They are perfect in Chrome and firefox, but as usual IE9 is causing problems. I have added some custom styles, but I'm not sure why this is happening. It shows the borders but no menu links!

www.jitwebsite.com

Any help would be great.

Thanks

J

Hello,

It seems this is a problem with site template styles. It seems "filter: progid:DXImageTransform.Microsoft.gradient" property from template.min.css file causes the problem.

Regards,
ARI Soft

Hi there,

Thank you so much for the advice. I was able to sort this problem by removing all references to the filter.

James
