
submenu issues

Posted by Josephi - 2010/05/24 15:50

My menu items that have submenus don't have class .yuimenuitem-hassubmenu (so that I get the arrows on them).

I'm including my modified safe_menu.css (changes in red):

Hello,

Could you provide link where we can see issue with sub-menu items?

On your site menu items contain '.yuimenuitem-hassubmenu' CSS class, arrows doesn't show due to your styles overriding, you can use the following code in 'CSS Styles' parameter that fix it:

```
BODY #{$id}.yui-skin-sam li.yuimenuitem,  
BODY #{$id}.yui-skin-sam li.yuimenuitem-hassubmenu {  
background-image: url(js/build/assets/skins/sam/menu.gif);  
}
```

```
BODY #{$id}.yui-skin-sam li.yuimenuitem-hassubmenu A.yuimenuitemlabel-hassubmenu {  
background: transparent url(js/build/menu/assets/skins/sam/menuitem_submenuindicator.png) no-repeat right center;  
}
```

```
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover {  
line-height: 1.93;  
}
```

or the following code in safe_menu.css file:

```
BODY {$id}.yui-skin-sam li.yuimenuitem,  
BODY {$id}.yui-skin-sam li.yuimenuitem-hassubmenu {  
background-image: url(js/build/assets/skins/sam/menu.gif);  
}
```

```
BODY {$id}.yui-skin-sam li.yuimenuitem-hassubmenu A.yuimenuitemlabel-hassubmenu {  
background: transparent url(js/build/menu/assets/skins/sam/menuitem_submenuindicator.png) no-repeat right center;  
}
```

```
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel,  
BODY {$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover {  
line-height: 1.93;  
}
```
