# Presentation ARI Yui Menu

Posted by avfivelstreek - 2010/05/25 10:45

_____

Yesterday we had contact about the background. That was fixed. Now the Yui Menu is not good working in IE7 (on my own computer is works good). How can i fix this ? I have an image file attached.

_____

Try to add the following CSS rule:

```
BODY #{$id}.yui-skin-sam .yuimenu UL LI
{
  background-color: #f5f5f5;
}
```

Regards,
ARI Soft

_____

It is better so. Is it possible highlight the items.

Regards,

Jack

_____

Sorry, try the following instead of the previous code:

```
#{$id} .yuimenu UL LI
{
  background-color: #f5f5f5;
}
```

Regards,
ARI Soft
