
Background of sub-menu

Posted by frlobe - 2010/05/28 00:22

Hello
I have a last question after the great help received yesterday. My sub-menu background was grey. I try to have it transparent but only succeeded in having it white ...

I try this code in CSS style:
BODY #{\$id}.yuimenuaritem-hassubmenu .yuimenuar
BODY #{\$id}.yuimenuaritem-hassubmenu-selected
BODY #{\$id}.yuimenuaritem-hassubmenu-disabled
{
background-color: transparent;
background-image: none;
}

I include the zip file with the relevant files.
http://www.ari-soft.com/images/fbfiles/files/debug_sofiom.zip
Thanks again for your help

Hello,

Add the following CSS rules to 'CSS Styles' parameter:

```
BODY #{$id} .yui-menu-shadow
{
    visibility: hidden;
}

BODY #{$id}.yui-skin-sam .yuimenu .bd
{
    background-color: transparent;
}
```

or the following code to safe_menu.css

```
BODY {$id} .yui-menu-shadow
{
    visibility: hidden;
}

BODY {$id}.yui-skin-sam .yuimenu .bd
{
    background-color: transparent;
}
```

Regards,
ARI Soft

argh ... background of the sub-menus is still grey ... I try both your code adding to mine or your code alone.

Actual CSS style is a following:

```
#header DIV.yui-skin-sam {  
text-align: center;  
}
```

```
BODY DIV.yui-skin-sam #ariyuimenu_ariyui23 {  
position: relative;  
display: -moz-inline-stack !important;  
display: inline-block !important;  
zoom: 1;  
*display: inline !important;  
}
```

```
BODY #{$id}.yui-skin-sam .yuimenuubar,  
BODY #{$id}.yui-skin-sam .yuimenuubaritem-selected,  
BODY #{$id}.yui-skin-sam UL LI.yuimenuitem-selected,  
BODY #{$id}.yui-skin-sam .yuimenu .bd  
{  
background-color: transparent;  
background-image: none;  
}
```

```
BODY #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:hover,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover  
{  
background-color: #FFF495;  
}
```

```
BODY #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:link,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:visited,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:link,  
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:visited  
{  
color: #FF5900;  
}
```

```
BODY #{$id}.yui-skin-sam .yuimenuubar ul li a.yuimenuitemlabel-disabled  
{  
cursor:default;  
color:#A6A6A6;  
}
```

```
BODY # .yui-menu-shadow  
{  
visibility: hidden;  
}  
BODY #.yui-skin-sam .yuimenu .bd  
{  
background-color: transparent;  
}
```

Thank you in advance (again B))

The last two CSS rules doesn't contain { \$id } placeholder. See our previous post, please. It should be:

```
BODY #{ $id } .yui-menu-shadow
{
  visibility: hidden;
}
```

```
BODY #{ $id }.yui-skin-sam .yuimenu .bd
{
  background-color: transparent;
}
```

instead of

```
BODY # .yui-menu-shadow
{
  visibility: hidden;
}
BODY #.yui-skin-sam .yuimenu .bd
{
  background-color: transparent;
}
```
