Hello,

Add the following CSS rule to template CSS file:

```
#banner1 .yui-skin-sam .yuimenuubar
{
    text-align: center;
}
```

```
#banner1 .yui-skin-sam .yuimenuubar .bd
{
    display: -moz-inline-stack;
    display: inline-block;
    zoom: 1;
    *display: inline;
}
```

```
#banner1 .yui-skin-sam .yuimenuubar .yuimenu .bd
{
    display: block;
}
```
