## removing border from menu

Posted by pantner - 2010/06/12 07:44

---

Hello,  
i am trying to remove the black border from the menu when using the milkyway template, so it matched the template better.

I have the following css code and it has mostly worked

```
body #{$id}.yui-skin-sam .yuimenuubar {  
  font-size: 93%;  
  line-height: 2;  
  *line-height: 1.9;  
  border: 0;  
  background: url(js/build/assets/skins/sam/mw_menu_normal_bg.png) repeat-x 0 0;  
}
```

```
body #{$id}.yui-skin-sam .yuimenuubarnav .yuimenuubaritem {  
  border-right: solid 0px #ccc;  
}
```

it has removed the border from most of the menu, but i still have 2 horizontal lines across the top and bottom of the menu which i can't seem to get rid of.

the address is <http://pantner.net/cdcb>

any help would be greatly appriciated!

\*note: i want to keep the border around the drop down boxes.

Hello,

You can add the following CSS rules to 'CSS Styles' textarea in module settings:

```
body #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel,  
body #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:link,  
body #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:visited,  
body #{$id}.yui-skin-sam ul li a.yuimenuubaritemlabel:hover  
{  
  border-width: 0;  
  padding-top: 1px;  
}
```

Regards,  
ARI Soft
