Thanks admin, and I could fix the error he had left a shot of how I wanted the menu to appear.

one more question? as I can do to make a text out to a double line menu?
Example of menu

Cuidado
del BebÃ©

thanks

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
#ariyui133 LI A
{
  height: 50px;
  width: 80px;
  white-space: normal !important;
}
```

admin again I

Might make me say as the smallest font submenu and is run right on a single line.

Thank you very much for the support

Use the following CSS rule instead of previous one:

```
#ariyui133_menu>DIV>UL>LI>A
{
height: 50px;
width: 80px;
white-space: normal !important;
}
```
