# Need help

Posted by Ernst - 2014/07/27 09:04

_____

Hi, I tryed a lot, but it doesn't work. At first, thanks for this menu.
You can see my site (under construction) on www.superfeeling.de

My wishes:
- No bullets (think there are in an other css as in the menu.css)
- No border inside
- Text color orange (#e58d04)
- Hover and Active Text color dark orange (#bd5d04)

Wich css.code I have to integrate in module page? Cant find a successful solution in the forum. Any changes I do on
/modules/mod_ariyuimenu/mod_ariyuimenu/js/assets/menu/sam/menu.css where ignored.

Thanks for a helping hand

Ernst

_____

Hello,

The bullets are defined in site template CSS file, add the following CSS rule to remove them (you can add it to "CSS Styles" parameter in module settings):

.yuimenu UL LI {background-image: none;}

Add the following CSS rules to change text color:

.yuimenu UL LI A {color: #e58d04 !important;}

.yuimenu UL LI A:hover,
.yuimenu UL LI A.yuimenuitemlabel-selected {color: #bd5d04 !important;}

Regards,
ARI Soft

_____

Great it works, what a wonderful and quick service. Thanks a lot.

My last wish (for today  :) ): How can I remove the border?

Greetings
Ernst

_____

You are welcome.

Add the following CSS rule:

.yuimenu .bd {border-style:none !important;}

Regards,
ARI Soft
