
Delete border

Posted by frlobe - 2010/06/29 02:47

Hello,

I would like to delete the external border of the menu. How is it possible to do this?

Thank you

Hello,

Could you provide link to page where we can see the menu?

Regards,
ARI Soft

The site is not live yet :) . I include one file with the generated code.

As you can see, the menu has an full border too large for it. I did not succeed to reduce it. So 2 solutions for me:

- if it is possible to reduce the block as large as my menu is
- or delete the external border and just keep the vertical one between the menus.

I would prefer the first option if possible.

Thanks <http://www.ari-soft.com/images/fbfiles/files/index.zip>

Type the following code in 'CSS Styles' parameter in module settings:

```
body #{$id}.yui-skin-sam .yuimenuubar
{
  border-style: none;
}
```

```
body #{$id}.yui-skin-sam .yuimenuubar ul li a.yuimenuubaritemlabel
{
  border-top-style: none;
  border-bottom-style: none;
}
```

Hello again

Thanks for your answer.

For any reason, it is not working. I still have the border around, too large for my menus.
Should it be possible to just have the border stricly around my menus ?

The CSS is like this actually:

```
body #.yui-skin-sam .yuimenuubar
{
    border-style: none;
}
```

```
body #.yui-skin-sam .yuimenuubar ul li a.yuimenuubaritemlabel
{
    border-top-style: none;
    border-bottom-style: none;
}
```

```
.yui-skin-sam .yuimenuubar
{
    text-align: center;
}
```

```
.yui-skin-sam .yuimenuubar .bd
{
    display: -moz-inline-stack;
    display: inline-block;
    zoom: 1;
    *display: inline;
}
```

```
.yui-skin-sam .yuimenuubar .yuimenu .bd
{
    display: block;
}
```

```
#header DIV.yui-skin-sam
{
    text-align: center;
}
```

```
.yui-skin-sam .yuimenuubar
{
    text-align: center;
}
```

```
.yui-skin-sam .yuimenuubar
{
    text-align: center;
}
```

```
BODY DIV.yui-skin-sam #ariyuimenu_ariyui23
{
    position: relative;
    display: -moz-inline-stack !important;
    display: inline-block !important;
    zoom: 1;
    *display: inline !important;
}
```

```
BODY #{$id}.yui-skin-sam .yuimenuubar,
BODY #{$id}.yui-skin-sam .yuimenuubaritem-selected,
BODY #{$id}.yui-skin-sam UL LI.yuimenuitem-selected,
BODY #{$id}.yui-skin-sam .yuimenu .bd
{
    background-color: transparent;
    background-image: none;
}
```

```
}

BODY #{$id}.yui-skin-sam ul li a.yuimenuBarItemlabel:hover,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:hover
{
background-color: #FFF495;
}

BODY #{$id}.yui-skin-sam ul li a.yuimenuBarItemlabel,
BODY #{$id}.yui-skin-sam ul li a.yuimenuBarItemlabel:link,
BODY #{$id}.yui-skin-sam ul li a.yuimenuBarItemlabel:visited,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:link,
BODY #{$id}.yui-skin-sam ul li a.yuimenuitemlabel:visited
{
color: #FF5900;
}

BODY #{$id}.yui-skin-sam .yuimenuBar ul li a.yuimenuitemlabel-disabled
{
cursor:default;
color:#A6A6A6;
}

BODY #{$id} .yui-menu-shadow
{
visibility: hidden;
}

BODY #{$id}.yui-skin-sam .yuimenu .bd
{
background-color: transparent;
}
```

It can be problem with template CSS styles. We can investigate it, if you provide link to online site.

Hello again,
my site is not live, just local. I can provide with generated code if required. I use Beez template.
Is it something manageable for you?
Regards

You can open your site in a browser, choose 'Save as' menu point, save page with all included CSS and javascript files,

archive it and send to us by email.

Hi,

I would also like to delete the border from the menu, but I am unable to do this using the CSS code you have provided.

I believe I may have the same problem as Friobe.

Your help is much appreciated.

Hello,

Use the following CSS rule:

```
body .yui-skin-sam .yuimenu .bd {  
    border-style: none;  
}
```

If you want to show border for sub-menus then add the following CSS rule:

```
body .yui-skin-sam .yuimenu .bd .bd {  
    border-style: solid;  
}
```

Regards,
ARI Soft
