Menu Options Alignment Posted by The Welsh One - 2010/07/03 13:30

Hi all,

Can someone please help me with the alignment of my menu options, I would like to justify them left.

Hello,

Menu items is left aligned, but they have left padding. You can use the following CSS rule that reduce left padding:

body .yui-skin-sam .yuimenuitemlabel { padding-left: 5px; }
