
Alignment

Posted by tripantigua - 2010/07/07 15:08

Menu not aligned with header/banner.....there is extra space to the left

www.tripantigua.com

I would like the menu to be flushed/justified with the header/banner

Thanks

Hello,

Try to add the following CSS rules:

```
#topmenu .module-topmenu
{
padding:0;
}
```

```
#topmenu .module-topmenu .yuimenuubar ul
{
height: 26px;
}
```

Regards,
ARI Soft

To site template CSS file or install the latest version of the module and enter it in 'CSS Styles' parameter in module settings.
