
Custom menu specification

Posted by andbrigo - 2010/07/10 10:15

Hi, I'm trying to explain what I need from this wonderful component.
I'm sorry but I haven't any site online now for furnish a link....

TYPE: vertical

MAIN MENU GROUP

No borders

No separators

White or transparent background

Font: Helvetica regular

Scrollable if height is over 180px

MAIN MENU ITEM

No borders

White or transparent background

Font: Helvetica regular

SUB MENU GROUP

No borders

No separators

White or transparent background

Font: Helvetica regular

Aligned to the top of the parent menu group

Spaced of 40px from the parent menu group

Scrollable if height is over 180px

SUB MENU ITEM

No borders

White or transparent background

Font: Helvetica regular

Thank you very much for your support!

Following the code from my page where the menu is located:

Home

Test menu

Titolo4

Titolo5

Titolo6

Titolo 7

titolo8

SubItem1

=====

Hello,

We can help you, if you upload you site to online server and provide link to page where we can see the menu because we need to see site template styles.

Regards,
ARI Soft
