
Submenu not complete visible

Posted by NickTheRipper - 2010/07/31 02:25

Sorry my english is not the best and i will try to describe my problem so good as possible.

If you klick on my menu points "Hilfe -> Kontakt" or "Hilfe -> Fragen und Antworten" on the right side, do you can see the sub menu is not visible complete. I searched to a solution in this forum and tested several solutions but without success. I can not find the mistake, why not i can see the submenu complete. Ið'ts possible to look on my page to find a solution for me, please?

My site is: www.audiomeister.de

Many thanks in advance!

Hello,

Add the following CSS rules:

```
body #frm,
body #menu
{
    overflow: visible;
}
```

Regards,
ARI Soft

If you klick on my menu points then are my submenu points under the breadpath. Where can i set the correct z-index or another value to fix this problem?

My site is with example: www.adipositasportal-koepenick.de

To see this problem and effect remove mouse over point "Unsere Community".

Many thanks in advance!

Hello,

It seems the module works fine now?

Regards,
ARI Soft

Hello,

Add the following CSS rule:

```
#wrapper #header
{
  z-index: 3;
}
```

Regards,
ARI Soft

Other problem, the text, each sub menu is too long....

www.andes2000.cl/incyc

Que puedo hacer??

Is posible put a line, between each option.

Sorry for my english is like TARZAN...

Gracias...
