Changing the size of the submenu font

Posted by Phixon - 2010/08/01 10:26

_____

Is this possible at all?

thanks, Josh

_____

Hello,

You can use the following CSS rule in 'CSS Styles' parameter on module settings page:

```
#{$id} ul ul li a
{
  font-size: 20px !important;
}
```

Regards,
ARI Soft
