Hello,

in IE6 the menu bar item literals and colors disappear when I mouse over them.
The issue is only present in IE6.

Any advice would be helpful.

Hello,

Add the next CSS rule:

```
#{ $id }.yuimenubar .bd UL LI A.yuimenubaritemlabel-selected,
#{ $id }.yuimenubar .bd UL LI A: hover
{
    background: #00679E none;
}
```

Thanks for your reply.

I added

```
#{ $id }.yui-skin-sam .yuimenubar .bd ul li a.yuimenubaritemlabel-selected,
#{ $id }.yui-skin-sam .yuimenubar .bd ul li a: hover
{
    background: #00679E none;
}
```

according to your suggestion (I replaced `#{ $id }` with `#{ $id }.yui-skin-sam` because there was no effect instead).

Some issues came up:

- a. The white arrows of the menubar disappeared in Firefox (when I mouse over the menubar tabs)
- b. In IE 6 the menubar items appeared (literals, colours are there now!) but the white arrows of the menubar, and the colors of the submenus when I mouse over them are now faulty.

Problem solved!

I changed

```
#{ $id }.yui-skin-sam DIV.bd a.yuimenubaritemlabel-selected
{
background-color: #00679e;
}
```

to

```
#{ $id }.yui-skin-sam DIV.bd ul li a.yuimenubaritemlabel-selected
{
background-color: #00679e;
}
```

Thanks a lot for your interest!
