
Center menu

Posted by coco - 2010/09/28 03:46

Hello

I know there are other threads regarding this issue but nothing has worked so far.
How can I get the menu to center on this website : www.cemos.com

thank you very much

Hello,

Try the following CSS rules:

```
#pillmenu .yui-skin-sam
{
    text-align: center;
}
```

```
#pillmenu .yuimenuubar
{
    display: inline-block !important;
}
```

Regards,
ARI Soft
