
Two problems with top menu

Posted by zinobios - 2010/10/10 08:29

I create a site <http://ka8odon.com> but i have 2 problems with top menu:

1)I see a gray line above the menu!

2)The width of children item menu is the same as the width of all the menu bar !!

How can i resolve theese problems ?

Hello,

These problems with site template styles. Use the following CSS rules:

```
#menu .yuimenuubar ul
```

```
{  
  width: auto;  
}
```

```
body #menu .yui-skin-sam .yuimenuubar
```

```
{  
  border-style: none;  
  border-width: 0;  
}
```

Thank you very much !!!

But I have another problem : the children menu item i want not to be transaparent.

Add the following CSS rule to 'CSS Styles' parameter in module settings:

```
#menu .yuimenuubar UL LI UL
```

```
{  
  background: url(templates/musiclove/images/nav_bg.jpg);  
}
```

Regards,
ARI Soft

One more problem :(

When i click at a parent or children item, all the page move up !

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft

Re:Two problems with top menu

Posted by admin - 2010/10/12 17:54

Hello,

It happens because you use '#' as link for menu item with 'Url' type. Use 'javascript:void(0)' instead of '#'.

Regards,
ARI Soft
