problem with menu Posted by calciodonne - 2010/10/24 12:00	
dear sirs	
I have installed ari yui menu module. I would like to show horizuntal menu with submenu but It is impossile. I see vertical menu. what is the problem?	
Re:problem with menu Posted by admin - 2010/10/24 14:52	- <del></del>
Hello,	
Check that 'Menu direction' paramete issue because it can be problem with	er is set to 'Horizontal'. If it doesn't help, provide link to page where we can see the site template styles.
Regards, ARI Soft
