
change line-height of horizontal menu

Posted by elena21 - 2010/10/26 14:26

Thanks fir great module!

I need to change size of top level horizontal menu. Row should be 50 px high.

What should be changed?

In what file?

Sample is here

<http://www.visimaker.com/joomla/>

Thank you

Elena

Hello,

Use the following CSS rules:

```
#tabarea UL LI.yuimenubaritem,  
body #tabarea .yui-skin-sam UL LI.yuimenubaritem A.yuimenubaritemlabel  
{  
    line-height: 60px !important;  
}
```

Regards,

ARI Soft
