
ARI YUI - Problem with drop down in IE7!

Posted by maorlast - 2010/11/01 15:11

Hi,
It seems that there is a problem with my site in IE7, the Hover is not alligned (no problem with other browsers or latter IE versions)

Keep on doing great stuff!
Thanks.

Hello,

Add the following CSS rules:

```
#top_menu .yui-skin-sam li a
{
    *line-height: auto;
}
```

```
#top_menu .yui-skin-sam ul li
{
    *line-height: auto;
    *height: auto;
}
```

Regards,
ARI Soft
