
Drop down menu Display Problem

Posted by chipul81 - 2010/11/02 04:15

Hi,
Need someone to help me how to solve my drop down menu problem. The problem is the drop down menu appear at wrong place. This cause we unable to click the sub menu. Refer to attached picture.
visit site at www.sriwarisanbatik.com I already tried all the solution in this forum but still no change.

Hello,

Clear "Submenu alignment" parameter in module settings.

Regards,
ARI Soft
