
Show only buttons and no fill on right

Posted by rowby - 2010/12/22 18:32

Hi

Please look at this link to temporary site:

<http://vangorental.com/>

I only want the buttons to show and not any color to the right of the buttons. Specifically there is a link called "Van Fans" and right now to the right of it is the blue background.

I want it to look like the attached screen capture.

BTW, I will be adding and removing menu items over time, so I can't just have a fixed with for the menu.

Thanks for a great Joomla extension!

Hello,

Add the following CSS rule:

```
.moduletable_Rowbyairyii .yui-skin-sam
{
display: -moz-inline-stack;
display: inline-block;
zoom: 1;
*display: inline;
}
```

Regards,
ARI Soft

Very nice!

Thanks for that quick response.

One more question, and I am not sure if it is possible.

On the menu item on the very right, there is a white border showing on the right edge of the button. I assume there is no way to turn that right border off only on the button that is on the far right??? OR some other trick to cover up that right white border.

OR, perhaps if there must be a border on the right vertical side of the button, then can there be a border on the left vertical left of the button so that the left end of the menu also shows a white border -- just for consistency.

Is this getting too complicated? Am I being too picky :)??
:P

Try to use the following CSS rules:

```
#ariyui96.yui-skin-sam DIV.yuimenuubar,
#ariyui96.yui-skin-sam DIV.yuimenuubar .yuimenuubaritem:last-child
{
    border-right-style: none;
}
```

Perfect!

I know this is a free extension, but I would like to make a paypal donation, but I can't find any donation button on the site here.

Is there a link I can go to to donate something for your great support?

Thanks

Thanks

I just now made a "work order".

Great component and great support!
