
LAST LEVEL OF MENU NOT OPENED

Posted by cubalibre - 2010/12/29 21:21

Hello,
I put a sample menu on the home page in the central area.
On the last level does not open the box

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft

It doesn't work because all of your menu items have "Separator" item type. Set other item type for end level menu items and it will work.

Fantastic! thanks for the quick support. This leads me to buy one of your components at once! I think I will buy ARI colorbox.

P.S. What is the difference between ARI YUI MENU and ARI EXT MENU?

You are welcome. We will be happy if you become one of our customers.

PS: "ARI Ext Menu" and "ARI YUI Menu" use different javascript library and have different settings.

Regards,
ARI Soft

Hello,
I have now bought ARI colorbox. Now I was looking for a component for "Featured articles list" as seen on this site:
<http://www.comune.albissolamarina.sv.it/>
....some suggestions to help you?

Thanks

Could you explain what possibilities your need from extension? Do you want to embed image slider into your site or something another?
