
starting with more items

Posted by blackktm - 2011/01/04 12:12

Hi,
I've installed and it's working, but in the menu, I only have 1 item; home,
I would like to see the sections all the time in the drop-down-menu.
Cannot find where to change this.
So that the drop-down menu is always visible with the main-links, like in your demo.

Hello,

Create necessary menu items in Joomla! menu manager. If you have any problems with it, you can provide temporary access to your Joomla! backend by email and we will help you to do it.

Regards,
ARI Soft
