Active Menu ramain active

_____

First of all - Thank you, for this great product!
Do you have plans to add functionality for the active menu to remain active, even the mouse goes over other menu items?
In current version, the active menu remains active until the mouse is moved over other menu items, after that the active item disappears.
If you plan to add this option, when should we expect version with this functionality?

Hello,

We'll try to add this possibility within 1.5 - 2 weeks.

Regards,
ARI Soft
