
some problem\'s in the menu

Posted by foty123 - 2011/01/27 15:41

hello,
thanks for a fantastic menu.
i got some problem's and i need your help. im new at joomla and i dont know anything about CSS.

1. when i hover on a menu it open nice and smoothly but when i remove my mouse it close in 1 shot , i want it to close excatly how it open's.
- 2.how do i change the style of the menu? in my site its a cube i want it to be more rounded in the corner's.
3. how do i change the color of the menu?
- 4.how do i change the font color?

thanks
foty123

Hello,

About question 1, the module doesn't provide this ability. About other questions, could you provide link to page where we can see the menu?

Regards,
ARI Soft

hello thanks for the quick reply
my site is on local host ...
ill show u a screenshot
<http://img715.imageshack.us/i/dsalh.png/>

and i want the menu to be on the right side not on the left side of the user3 position.

Try to use the following CSS rules:

2.

```
.ux-menu-container .ux-menu a.ux-menu-link-first
{
-moz-border-radius: 10px 0 0 10px;
-webkit-border-radius: 10px 0 0 10px;
-o-border-radius: 10px 0 0 10px;
border-radius: 10px 0 0 10px;
}
```

```
.ux-menu-container .ux-menu a.ux-menu-link-last
{
```

```
-moz-border-radius: 0 10px 10px 0;
-webkit-border-radius: 0 10px 10px 0;
-o-border-radius: 0 10px 10px 0;
border-radius: 0 10px 10px 0;
}

.ux-menu-container .ux-menu .ux-menu-sub a
{
-moz-border-radius: 0;
-webkit-border-radius: 0;
-o-border-radius: 0;
border-radius: 0;
}
```

3 and 4.

```
/* background and text color */
.ux-menu-container UL.ux-menu LI a
{
background: none red;
color: green;
}

/* background and text color for active menu items */
.ux-menu-container UL.ux-menu LI a:hover,
.ux-menu-container UL.ux-menu LI a:focus,
.ux-menu-container UL.ux-menu LI a.ux-menu-link-hover
{
background: none blue;
color: black;
}
```

Regards,
ARI Soft

hello
thanks again :)
but i want each cube to be rounded i dont want only the corner of the entire menu to be rounded

foty123

edit:
never mind i have arange my problem.

hello again :P
i have found another issue that i have,
i have added a new menu on the side and its open on the right
how to make the menu to open to the left and not to the right?

The module doesn't support this ability. It can display sub-menus only on the right side.
