
active menu item font weight?

Posted by iaweb - 2011/02/19 12:45

First of all, thanks for a really nifty and great module...

All I want from it it does so far for me, except I am not able to get the currently active menu item to show in bold letters and this items only in bold letters...

I guess something in my css override is wrong, however I do not know what. Any chance somebody can point me in the right direction?

Here is the override I use:

```
-----
.ux-menu a {
  color: #353535;
  border-left: 0px solid #eee8da;
  border-top: 0px solid #eee8da;
  border-bottom: 0px solid #eee8da;
  background: #eee8da url(images/menu-item-bg.png) repeat;
}

.ux-menu a.ux-menu-link-last {
  border-right: 0px solid #eee8da;
}

.ux-menu a:focus,
.ux-menu a:hover,
.ux-menu a.ux-menu-link-hover {
  border-color: #eee8da;
  background: url(images/menu-item-bg-over.png) repeat;
}

/* background */
.ux-menu-container
{
  background: #eee8da;
}

/* over */
.ux-menu-container .ux-menu A.ux-menu-link-hover
{
  background: #eee8da;
}

/* select over */
.ux-menu-container .ux-menu a:hover,
.ux-menu-container .ux-menu A.ux-menu-link-hover:hover
{
  background: #eee8da;
  color: #63022f;
  text-decoration: none;
}
.ux-menu a:current {
  font-weight: bold !important;
}
-----
```

Thanks for any help in advance.

Maxi

Hello,

Could you provide link to page where we can see the menu on your site?

Regards,
ARI Soft

Sure, here it is, the top most menu is the one in question ... The contacts link is the only one currently in use, as we are still building this site...

<http://d11743379.u144.iaweb.biz/>

Thanks

Maxi

Could you specify "Highlight current menu item" parameter in module settings is set to "Yes"?

Regards,
ARI Soft

Lol, yeah I am an idiot, it was not... Now it is and it did some change, now I have a slightly different background, which is not bad, but the font is still not bold for the active menu item...

Thanks

Maxi

Add the next CSS rule:

```
#ja-wrapper .ux-menu-container .ux-menu li a.current
{
  font-weight: bold !important;
}
```

Regards,
ARI Soft
