
Submenu Help

Posted by TheSnowMan - 2011/02/23 03:15

Site is: TheBullogic.com

Having trouble with the submenu part.

1)Would like to prevent the size change on hovering

2)Close the gap between submenu items

3)Add a black border around each submenu item

Thanks for the help

Hello,

Add the next CSS rules:

```
#pillmenu .ux-menu-sub li {  
    margin: 0;  
}
```

```
#pillmenu .ux-menu-sub li a:hover {  
    float: none;  
}
```

```
#pillmenu .ux-menu-sub li a {  
    border: 1px solid black;  
}
```

Regards,
ARI Soft

Thanks

That works, except now when I roll over 'Education' it moves

Add the following CSS rules:

```
#pillmenu .ux-menu-container .ux-menu a  
{  
    float: none;  
}
```

```
#pillmenu .ux-menu-container .ux-menu a:hover,  
#pillmenu .ux-menu-container .ux-menu a:focus  
{  
    border-right-width: 0;  
}
```

```
#pillmenu .ux-menu-container .ux-menu .ux-menu-sub a:hover,  
#pillmenu .ux-menu-container .ux-menu .ux-menu-sub a:focus  
{  
    border-right-width: 1px;  
}
```
