Which CSS file to use?

_____

Hello dear,

please help me, i tried all the ways to modify the design of the menu but not work
as i understand from the forum that i should open the following files to edit it

/modules/mod_ariextmenu/mod_ariextmenu/js/css/menu.min.css
/modules/mod_ariextmenu/mod_ariextmenu/js/css/menu.css

So, all the changes i did in these file not affect on the menu, i don't know why?
may you please tell me which file i should use to modify the apperance of the menu?

Thanks in advance.

Hello,

The module uses /modules/mod_ariextmenu/mod_ariextmenu/js/css/menu.min.css file.menu.css file is original version of
menu.min.css file.

We can try to help if we see the problem. If it is impossible to provide link to page, you can send page files by email. This process is described here.
