Choose "Page -> Save As..." menu item in browser's menu, then choose "Webpage, complete" in "Save as type" drop-down and save all files to a folder.

Hi,

---

The menu with the arrow goes a bit over the border.  
How can I be equal with the other?

Thank you.

Hi,

Solved!  
This code is added and works great.  
This code also removed dotted middle vertical line of the template.

Thank you very much.  
Sincerely,  
twwe.
