Hello,

If you mean default menu borders, use the next CSS rules that remove them:

```
DIV.ux-menu-container UL.ux-menu LI,  
DIV.ux-menu-container UL.ux-menu LI A  
{  
  border-style: none;  
}
```

Thank you, do I just put that in somewhere? I tried putting that in the top of the menu.css, tried finding it...I'm sorry I'm not understanding where? Thank again!

Add it to "CSS Styles" parameter or to menu.min.css file or to site template CSS file.
