## End level setting wipes HTML

Posted by doeskuh - 2011/02/28 12:17

---

Hi there,

Before i posted this issue i did quite some reading but couldn't find a fix.

The 'end level' doesn't seems tot work @ <http://pco.zygo.nl>. If i set the 'end level' value to 1 (for example) the complete menu dissapears in the HTML source. Please help me out here... See screendumps as attached... <http://www.ari-soft.com/images/fbfiles/images/wipedhtml.jpg>

Hello,

Provide screenshot of module settings page please.

Regards,

Thanks voor your quick response! Here a screenshot with all settings, below the classes that are added in the "css styles" window. Thanks in advance!

```
.ux-menu-container ul li a,  
.ux-menu-container ul li a.ux-menu-link-hover  
{  
    background: none #45b1d1;  
    color: white;  
    border:0px;  
    width:105px;  
}
```

```
.ux-menu-container ul li a:hover,  
.ux-menu-container ul li a:active,  
.ux-menu-container ul li a.current {  
    background: none #3b9ebb;  
    width:105px;  
    color: white;  
    border:0px;  
}
```

```
.ux-menu a {  
    border:0px;  
} http://www.ari-soft.com/images/fbfiles/images/settings-845d89e39f27872cfe047b98338f9dba.jpg
```
