
Modify ARI EXT Menu to accordion

Posted by Artchy - 2011/03/01 11:45

Hello!

Is it possible to modify existing ARI Ext menu from fly-out style to accordion style (for displaying sub menu items below instead of near of menu). Now have to this task at work so don't know how to realize this. Thanks.

Hello,

The module doesn't provide this ability. It requires custom modification.
