user: \*\*\*

passdowrd: \*\*\*

(you will be prompted with a joomla log in)

my menu has been interfering with the other link properties I have on the site. I thought I had it working fine but thankfully I clicked on "archives" and saw that the other labels disappeared! Ive tried figuring out what css to add but nothing worked. help me out?

Try to add the next CSS rule:

```
ul.ux-menu li a
{
    color: white;
}
```
