Subitems under page body

Posted by spazmatronik - 2011/03/07 13:46

_____

Hello,

I search deeply forum and tried all solutions which I found here to solve this problem, but nothing helped. So I decided to make new thread and ask for help.

Link: http://spazmatronik.ovh.org/nowa

Subitems are showing under page body:(
Please help

Paul

_____

Hello,

Add the next CSS rules:

```
body .art-contentLayout .art-sidebar1
{
 overflow: visible;
 z-index: 10;
}

body .art-contentLayout .art-content
{
 z-index: 1;
}

body .art-contentLayout .art-sidebar1 .ux-menu LI
{
 padding: 0;
 margin: 0;
}
```

Regards,
ARI Soft
