Hello

I'm having the same problem. Now, the problem appears to overlap with the main menu, use the template from Gavick gknews.

Hello,

This problem with site template styles. Add the following CSS rules to fix the problem:

#gkPageTop

```
{
  z-index: 2;
  position: relative;
}
```

```
#gkPageContent
{
  z-index: 1;
  position: relative;
}
```
