## sub menu arrow and items

Posted by Taxpundit - 2013/03/19 05:49

---

Hi

I have just installed this module. I am using Beez 20 park site template where position 7 is on the right side. the ARI module shows all sub menus to further right which are not visible. How can I shift the arrow and sub menus towards left ?

Hello,

The module doesn't support ability to show sub-menus at left side. This ability is supported by "ARI YUI Menu" module.

Hi

I have installed ARE YUI and using the default settings---the issue is somewhat resolved except two things---

1. the arrows are still on the right side
2. the look and feel is not like ARI Ext menu...

To get the same look and feel do i need to add any css styling...? if yes can you please let me know since not very good at styling...

Thanks for your excellent support and product...

1. Set "Submenu alignment" parameter to tr,tl value.
2. Information about menu HTML layout and CSS classes can be found here. It can be used to customize the menu.

Hi..

1. I did this but nothing has changed...
2. i will browse through the link..

Please provide solution for point no. 1. Basically I want arrows to the left pointing towards left...

Hi..

Thanks for your quick reply...

pls visit [www.taxpundit.org](http://www.taxpundit.org) and after registration/login see on the right hand side menu called Tax Resources. The arrow is pointing towards right...bit urgent since it is on a live site and does not look nice...pls help...

Hi

I have activated your account and you can now login...

Thanks & regards

The module shows sub-menus at left side, but it doesn't change position of "submenu" indicator icons. If you want to change it, it requires custom modification.

Hi

Thanks for looking at my site...? will custom modification cost me..? if yes...how much...and how do i settle it....?

Regards...

You can add the following custom CSS rule to a site template CSS file:

```
#nav .yui-skin-sam LI.yuimenuitem-hassubmenu
{
  background-position: left center !important;
}
```

And modify /modules/mod\_ariyuimenu/mod\_ariyuimenu/js/assets/menu/sam/menuitem\_submenuindicator.png image.
